

Quality of Education: Attaining Standards for Improved Learning Outcomes & School Effectiveness

Under its Girls Education Program, Community World Service Asia has successfully completed another year, June 2018 – July 2019, of providing inclusive and equitable quality education in Pakistan & Afghanistan.

Projects' interventions aimed at improving physical & learning environment, Early Childhood Care & Education, pedagogical skills and civic education.

In order to accelerate progress and to ensure the implementation of quality education, Community World Service Asia works with local governments, local communities, teachers and students at pre-primary and primary levels.

Projects' Successes

15,909
