Greetings from Community World Service Asia!

Community World Service Asia is organizing a training on *Advancing Women Leadership* from November 24 to 29, 2019 in Bangkok, Thailand.

There are more educated and driven women entering the workforce today than ever before, yet most organizations still struggle with retaining and developing women leaders. The time to change this trend and see the impact of gender parity in leadership is now.

Why women only?

In short:

- Women’s leadership style is different than their men counterparts.
- Women set out to make a difference through action.
- Women are worth it!

This training is a holistic approach to leveraging the strength and power of women. We are all unique beings and this course lends itself to that.
